

NATIONAL E-CONFERENCE ON RECENT ISSUES & CHALLENGES IN RESEARCH (19 February, 2022)

**Organised by
Government College, Nihri, Mandi**
In association with
Pratibha Spandan Society, Shimla

Welcome to One-day Online National Conference on the theme **Recent Issues & Challenges in Research**. The knowledge world needs a skilled squad and band of frontrunners to handle the challenges which the technological world, governments and societies around the world are facing. Most of the challenges the people are confronting currently are new and there will certainly be others likely to grow in the future which will require innovative approach and solution to overcome. Higher education institutions are no longer able to train manpower to address the contemporary and recent challenges through a single disciplinary approach. Multidisciplinary approach to research and academics is vital keystone to meet the vibrant needs of present day's higher education. This conference shall act as a forum for exchange of ideas on the ascending avenues in interdisciplinary research. Interdisciplinary approach involves a process of responding to a query, resolving an issue, or focusing on a concern that is too broad or complex to be dealt with suitably by a single discipline or profession and integrates the interdisciplinary understanding by building of a more inclusive outlook. In the recent years, the focus of research has become interdisciplinary. It involves the systematic enquiry of trends, problems, issues, enquiries etc., to increase knowledge and understanding.

We invite galaxy of prominent scholars, researchers and students to share the innovative ideas on a common platform and present their vision on recent trends in multidisciplinary research. This national conference is expected to initiate the collaborative ventures across diverse disciplines to serve the society in a better way. The main themes likely to be covered but not limited to the following during the conference are:

Recent Issues & Challenges in Research in Social Sciences/ Commerce and Management/Fine Arts and other streams	
<ul style="list-style-type: none">• Impact of Covid-19 pandemic• Contemporary Social Problems• Ethno-Cultural Issues• Psychology• Relationship of Social Science with other subjects• Science and Education• Social Justice• Social Stratification and Inequality• Women, Employment and Society• Workplace Violence• Eve-Teasing and Its Impact• Environment, man and society• Gender, environment and development• Indian Science in Prehistoric Times	<ul style="list-style-type: none">• Education management and administration• Educational Leadership and Policy• Human rights and education• Spirituality, Science and Environment• Value-based Education• Professional Ethics• Professional Ethics and Management• Tourism Development• Contemporary Business Issues• Employability and Competence• Contemporary Management• Research and Plagiarism• Violence at Workplace• Use of Information Technology
